This might sound strange, but I was wondering if I could use my iPhone 4 as an external hard drive. The reason I ask is because I want to use the iPhone's screen and camera for taking photos for a school project. And I know that you can't take pictures of that on your iPhone, but would it work if I connected my iPhone 4 as an external hard drive? Thanks! A: No, that is not possible. The iPhone 4 has no USB port, it does have Wi-Fi. You could connect it to your Mac via a wireless LAN using AirDrop, but there is no way you could connect it to a PC directly, because the iPhone is an Apple product.
