**CLAN FOUNDER OFFICER GAME: PUBLISHER OFFICER GAME: New Fantasy Action RPG Story and Characters**The Legend of The Elden Ring takes place in a fantasy world where humans and an ethereal race known as the Elden have coexisted since ancient times. The Elden, with their divine power, forged the world of Alcantera in harmony with the cosmos. But as the millennia have passed, the coexistence has become fragile. Soon, a race of witch Elves emerge from the four corners of the world and drive the Elden from the lands. The peace of the Elden's existence is thus broken. Over the generations, the power of the Elden's divine magic has gradually waned as the Elves ravaged them with unnatural sorceries. They and their descendants were forced to hide. In order to save the lands, a young girl was chosen. She is the first descendant of the Elden's final line, the chosen heir named Tarnished, who has taken the power of the Elden and accumulated the most powerful magic. Now, the Lands Between lies in a state of total chaos as Tarnished endeavors to break through the nightmares to restore the world of the Elden.
