Does anyone have an idea of how I could create a windows store screen saver? It's an app I want and I'm not really into making them (sorry). A: Apps that have been certified on the Windows Store are verified, and they run in the new Windows Store apps sandbox environment. These apps can be easily used in the following scenarios: On Windows 8 or 8.1: You can find new apps in the store, or you can download apps you've already made and install them into the Windows Store apps folder. On Windows 10: In Windows 10, you can use new apps, but only in the Windows Store apps folder (from \Windows\Apps). There are apps that must run on the desktop and Windows Store apps are specifically designed to run on the desktop. You can find more information on what Windows Store apps do and how they differ from desktop apps here: You have to manually launch Desktop apps in Windows 10. This is something you'll see in some new app tutorials for Windows 10. Any apps that you create using the desktop can be installed in the Windows Store.
